## Pilot Spotlight

Sponsored by:

### ■ Penn State professor finally earns his wings

Art Hattel, a Penn State research professor, took longer than most to complete his pilot's license: two years, two months and one day. Hattel choose to pursue a sport pilot license, which usually allows pilots to become licensed in half the time and at half the cost of the traditional private pilot license. However, Hattel purchased a vintage 1946 Ercoupe in the middle of his training, and learned to fly in his own plane. [The Express \(Lock Haven, Pa.\)](#) (9/20)
